~~S E C R E T~~ □

SUBJECT: Weekly Report

4. In support of a tasking from the Director of Central Intelligence, the Chairman of the Walker-Whitworth Damage Assessment Group, accompanied by a representative from OC, attended a preliminary factfinding effort which will ultimately result in a National Damage Assessment caused by the spy ring.

5. OC's request to institute a pilot program for the repolygraph of all staff personnel who hold a CRYPT-3 clearance at intervals of five years has been approved by the Office of Security (OS). A formal memorandum confirming OS' support and requesting the assistance of OC in identifying specific positions and personnel having a high priority for reinvestigation, including polygraph, is being formulated.

6. During the period of 1 May to 31 October, OC successfully entered-on-duty a total of 50 field engineers. This increase of highly qualified personnel will significantly add to the quality and effectiveness of future communications support to the Agency and the Intelligence Community.

8. One-time-tape emulation software and expansion memory boards are being pouched to all Intelligent Communications Terminal (ICT) stations during the week of 3 November. With the deployment of this new software, all outdated teletype equipment will be removed from ICT-equipped stations.
